Subject: Uber is Good!!!

Making Uber illegal in South Carolina is very disappointing and needs to be reconsidered. The free market and technology make Uber a great organization for the public and one that should be decided by the public not the few 'old boy' special interest groups.

I have used Uber in SC and find it a safe, economical and easy to use alternative to the current monopolistic situation that does not offer consumers ANY real choices.

Please reconsider for the good of your constituents.

Sincerely,
Thomas R. Minucci

Subject: Uber

As an Uber customer and resident of Charleston, South Carolina, I am appalled by this decision. This company has exceed my customer service expectations time and again in Charleston and cities throughout the United States. I can assure you that I would have never utilized this service had it not come highly recommend from many colleagues and friends. The company and its drivers have been professional and delivered on their promise of getting me from A to B safely, easily, and economically.

I urge you to reverse this decision and return to us the right to use a superb company!

With my regards,
Sebrina Leigh-Jones

Support Uber! I trust them every time I travel to different cities or even if I'm in downtown Cola. They're a vital part of safety when going out and it would be a shame if they were shut down.

Sincerely,
a worried student

Let uber live! Taxis are outdated, uber is the new ride service up to date with the times. Like red box making blockbuster obsolete so must the world progress with technology.

Rock on,
Evan
